ASIM QuickStart

FREE 1-HOUR FOUNDATION FOR
YOUR FIRST 10 MINUTES

The first 10 minutes of an active shooter set the tone for everything that follows.

ASIM QuickStart is a **free** 1-hour online course that gets law, fire, EMS, and dispatch on the same first 3 moves, so they act as one team instead of four separate agencies.

**GET ASIM QUICKSTART FOR YOUR
RESPONDERS AT NO COST.**

Give every responder the same first 3 moves, on their own schedule.

WHAT ASIM QuickStart DOES

ASIM QuickStart is the fast, **free** way to put your people on a common active shooter playbook. In about an hour, law, fire, EMS, and dispatch learn the same first 3 moves and shared language for the first 10 minutes of an incident, using short, on-demand videos they can watch on shift.

- Free 1-hour online course for law, fire, EMS, and dispatch
- Short 3–4 minute videos, watch in any order, on any schedule
- Gets everyone on one playbook from minute one
- Clarifies the first 3 moves so units don't work at cross-purposes
- Reduces radio friction and confusion under stress
- Trains to a recognized ASIM standard and sets the stage for deeper ASIM training

Cost for your agency: **\$0** – use **QuickStart** as your on-ramp into full ASIM readiness.

Unify First 10 Minutes

Give law, fire, EMS, and dispatch the same initial priorities and actions so they start every incident on the same page.

Easy to Complete on Shift

3–4 minute videos your people can watch between calls, in any order, without disrupting coverage or overtime.

Foundation for ASIM Training

Standardize language and expectations up front, so later ASIM classes and exercises move faster and go deeper.

To enroll your entire agency in ASIM QuickStart for FREE, email info@c3pathways.com and ask about QuickStart training officer access.

The first 10 minutes are too important to leave to chance.
